

## Create A Student Group

### GROUPS

There are several options for group creation: self-enroll groups, manual enroll groups, randomized enrollment in groups, group set creation and student created groups. Instructors may also manage groups and group properties in bulk.

1. Setup and access groups from the Control Panel: **Users and Groups > Groups**.
2. To create a single group, select Create Single Group > Self-Enroll or Manual Enroll.
3. To create multiple groups at once, select Create Group Set > Self-Enroll, Manual Enroll or Random Enroll.
